I don't think so, the request specifically asked for materials related to the three proposed pieces of legislation.

PROPOSED LEGISLATION 

The Westbank Case (Gretna and Marrero, LA) involves asbestos used as driveways. The asbestos was waste from Johns Manville. We spent about \$20 million cleaning it up. There are extensive files, but I think we have put almost everything on disk. Does this sound like something you would be interested in? I am not familiar with the legislation.

Subject URGENT - TIME SENSITIVE REQUEST REGARDING
PROPOSED LEGISLATION

If you have any materials relating to H.R. 3285, H.R. 3339 or S. 742, please let me know ASAP. These bills relate to regulation of asbestos and we have a request for information from our House oversight committee with an extremely short deadline. Thanks.
